## BOARD CALLS

You should be up at your board, ready to start play no later than 5 minutes after the conclusion of the previous match.

Each player is responsible for knowing where they need to be at all times.

## SCOREKEEPING

We are using the loser scores rules. Once a player is knocked out, it is their responsibility to keep score for the next match on that board. Using this system, the most any one person has to score is once.

(the last player drawn on a board will be asked to additionally score the first match, A DPDC official will score the finals)

Let's all be courteous and responsible and help the event run smoothly, it will be most appreciated by your fellow players.

## BREAKS

During a match, each player can call and take one break of 2 minutes in length. This break **MUST** be clearly requested upon the completion of a leg with a player hitting a double to win. There will be **NO** breaks allowed or given, going into the **LAST 3** legs in any match. It is up to each player to help keep the competition moving. Know when you are up to play. Take all bathroom, smoke, bar breaks when you have the ample time to do so.
